# need credentials?

Kelly® offers coursework and career support to help you prepare

As an engineering professional, it's essential to have support when preparing for critical, in-demand credentials within your discipline. Kelly invests in your career by offering top-quality online coursework to help you achieve your goals through the Kelly Learning Center, and all courses are **FREE** to Kelly contractors, including:

## PMP Certification Prep

This curriculum provides all the online courseware and materials needed to prepare for certification as a Project Management Professional (PMP®), as recognized by the Project Management Institute (PMI®). Courseware and materials align with the *PMBOK® Guide – Fourth Edition*, pre-approved as contact hour credits for individuals who are preparing to apply for one of the PMI certification exams.

### Curriculum features:

- 27 online courses, aligned to the requirements for approved contact hours and PDU credits
- Two simulations, to exercise your knowledge
- 24/7 access to project management mentors, making the most of your certification prep
- A test prep exam, to test your knowledge in a simulated certification-testing environment *before* you take the PMP exam

## Certified Six Sigma Green Belt (SSGB) Test Prep

Six Sigma methodologies are applicable to organizations across the spectrum of industries, from manufacturing to service to healthcare. This curriculum will increase your knowledge of the skills and competencies being measured by the vendor certification exam.

### Curriculum features:

- 18 online courses aligned to ASQ requirements (35 course hours)
- Access to Six Sigma Green Belt mentors, making the most of your certification prep
- A test prep exam to test your knowledge in a simulated certification-testing environment before you take the SSGB certification exam

Take advantage of our valuable resources that will help you stand out among your peers.

The test prep can be taken in two modes:

- **Study Mode** is designed to maximize learning by not only testing your knowledge of the material, but also by providing additional information on the topics presented.
- **Certification Mode** is designed to test your knowledge of the material within a structured testing environment, providing valuable feedback at the end of the test.

## Certified Six Sigma® Black Belt (SSBB) Test Prep

This curriculum provides all the courseware you need to prepare for successful completion of the Six Sigma Black Belt Certification Exam. Six Sigma Black Belts have a thorough understanding of all Six Sigma principles, and can explain its philosophies as the leaders of change within an organization. Courseware is mapped to the Six Sigma DMAIC model, and also directly to ASQ Black Belt exam objectives, with realistic examples and simulations derived from actual experience of certified Black Belts.

### Curriculum features:

- 30 online courses aligned to ASQ requirements (58.5 course hours)

## Contact us today!

Professional development is especially important in today's business environment. Trust Kelly for the support you need to advance your career. Visit [kellyservices.us/engineering](http://kellyservices.us/engineering) to find the office nearest you. Kelly employees may log on to the Kelly Learning Center to explore our online courses.
